Triad Security Systems...
With the awesome power of **TIRIS™**
transponder technology from Texas Instruments™

Provide unsurpassed, bulletproof protection
matched by no other security product.

“Fully Passive Design” assures
continuous protection,
unprecedented
ease of operation
and rock solid,
rugged
dependability.

Designed
for years
of performance,
transponders have no
batteries or moving
parts. They are waterproof
and virtually indestructible !

Hidden inside your dash console is Triad's
communication antenna. Triad “Locks Out”
your ignition until the unique digital code
of your companies transponder keyfob is
present. Triad automatically re-arms every
time your equipment is turned off.
